

Research and Evaluation Studies of ICPS

A multitude of researchers have developed social problem solving interventions. Below are sample studies of the specific impact of ICPS trainings. They were selected to show the broad range of outcomes examined and how the impact of ICPS interventions was investigated for more than 35 years, from the 1970s to the present.

Aberson, B. (1986). *I can problem solve (ICPS): A cognitive training program for kindergarten children*. Report to the Bureau of Education. Miami, FL: Dade County Public Schools.

Allen, R. J. (1978). *An investigatory study of the effects of a cognitive approach to interpersonal problem solving on the behavior of emotionally upset psychosocially deprived preschool children*. Unpublished doctoral dissertation, Center for Minority Studies, Brookings Institute, Union Graduate School.

Boyle, D., & Hassett-Walker, C. (2008). Reducing overt and relational aggression among young children: The results from a two-year outcome evaluation. *Journal of School Violence, 7*, 27-42.

Callahan, C. (1992). *1991-1992 evaluation report for the Mental Health Schools Project*. Unpublished report, Mental Health Association in Illinois.

Chiou, V., Zissi, A., Xanthakou, & Kaila, M. (undated). *Mental health and creative thinking among preschoolers in Greece: The Preschool Interpersonal Problem Solving Test*. Unpublished manuscript, University of the Aegean.

Ciancio, D., Rojas, A. C., McMahon, K., & Pasnak, R. (2001). Teaching oddity and insertion to Head Start children: An economical cognitive intervention. *Applied Developmental Psychology, 22*, 603-621.

DeFranco-Nierenberg, K., & Givner, A. (August, 1998). *Effects of an interpersonal cognitive problem solving curriculum with seriously emotionally disturbed children, Grades K-2*. Presented at the American Psychological Association, San Francisco, CA.

Dincer, C., & Guneyusu, S. (1997). Examining the effects of problem solving training on the acquisition of interpersonal problem-solving skills by 5-year-old children in Turkey. *International Journal of Early Years Education, 5*, 37-46.

Elias, S., Marturano, E., Matta, A., & Giurlani, A. G. (2003). Treating boys with low school achievement and behavior problems: Comparison of two kinds of intervention. *Psychological Reports, 92*, 105-116.

Feis, C. L., & Simons, C. (1985). Training preschool children in interpersonal cognitive problem solving skills. A replication. *Prevention in Human Services, 3*, 59-70.

Hawkins, J. D., Catalano, R. F., Kosterman, R., Abbott, R., & Hill, K. G. (1999). Preventing adolescent health-risk behaviors by strengthening protection during childhood. *Archives of Pediatric Adolescent Medicine, 153*, 226-234. (Includes modified ICPS program).

Kurnpfer, K. L., Alvarado, R., Tait, C., & Turner, C. (2002). Effectiveness of school-based family and children's skills training for substance abuse prevention among 6-8 year-old rural children. *Psychology of Addictive Behaviors, 16*, S65-S71.

- Kwon, Y. M. (1995). *The effect of interpersonal cognitive problem solving training on behavioral adjustment of children*. Unpublished thesis, Song-Sim University, Bucheon, Korea.
- Özcan, C. T., Oflaz, F., Türkbay, T. (November, 2008). *Effects of teaching an interpersonal cognitive problem-solving strategy on oppositional defiant problems in children with attention deficit hyperactivity disorder*. Paper presented at the Horatio Festival of Psychiatric Nursing, The age of dialogue. Malta.
- Punia, D., Balda, S., & Punia, S. (2004). Training disadvantaged rural children for interpersonal cognitive problem solving skills. *Stud. Tribes Tribals*, 2, 9-13, (India)
- Richardson, D. L., & Jones, J. L. (May, 2008). *Impact evaluation of interpersonal problem-solving skills program for preschool and early elementary classrooms*. Presented at the Children, Youth, and Families at Risk (CYFAR) conference, San Antonio, TX.
- Shure, M. B. (1980). *Interpersonal problem solving in ten-year-olds*. Final Report #MH-27741, Washington, DC: National Institute of Mental Health.
- Shure, M. B. (1984). *Problem solving and mental health of ten- to twelve-year-olds*. Final Report #MH35989, Washington, DC: National Institute of Mental Health.
- Shure, M. B. (1993). *Interpersonal problem solving and prevention. A comprehensive report of research and training. A five-year longitudinal study, Kindergarten through Grade 4*. Final report #40801. Washington, DC: National Institute of Mental Health.
