

## I Can Problem Solve (ICPS) Implementation and Training of Trainers, Coaching and Consultation

ICPS is an evidence-based curriculum that builds interpersonal thinking and problem-solving skills for children, ages 4-12. ICPS Implementation and Training of Trainers (TOT) with consultation will prepare training participants to identify the research-based skills that support the philosophy of ICPS. Participants will learn concepts and pedagogical strategies involved in implementing the ICPS program with fidelity with children in the United States; and understand the four major pre-problem-solving skills and the three major problem-solving skills needed to implement the ICPS curriculum components and teach these skills to children. Trainees will demonstrate use of ICPS Vocabulary Word Pairs and Feeling concepts in non-problem- and problem-solving situations and practice teaching students how to generate alternative solutions, anticipate consequences, and effectively solve problems. Collaborative for Academic, Social and Emotional Learning (CASEL) acknowledges ICPS as an SElect program (its highest recognition). Participants will be able to apply ICPS concept and strategies in order to provide non-fee-based ICPS implementation training and coaching to staff within their organizations.

TOT candidates are expected to attend each ICPS virtual training session in its entirety in order to implement ICPS with children and provide ICPS non-fee-based coaching to educators within their organizations. TOT candidates are provided with five hours of virtual consultation with their training cohort to support ICPS implementation and TOT.

Participants will receive a certificate of completion at the conclusion of training and consultation.

For participants interested in implementing ICPS outside of the United States, additional consultation is required. Please contact Stephanie Colvin-Roy, Lead ICPS International Trainer, at [sroy@csc.csiu.org](mailto:sroy@csc.csiu.org).

\*Please note: This training does not provide participants with the ability to provide fee-based ICPS implementation.

**Required Materials:** Each participant will need a copy of the ICPS curriculum they intend to use with children (Preschool/Kindergarten, Primary-Kinder-2nd, or Intermediate-3rd-5th). ICPS curriculum by Dr. Myrna B. Shure is purchased from the publisher, Research Press.
